

# More than 5000 Attorneys, IT Staff and Co-counsel in the AMLAW 250 use Biscom's Security Software

Law firms of all sizes are challenged with securely transferring volumes of increasingly large files to clients, business partners and outside counsel. Biscom enables you to solve this challenge, by delivering an advanced secure file transfer solution that meets the demanding file exchange requirements of today's complex legal environment.

## Why Choose Biscom?

- **Protect your firm's reputation** with advanced security of confidential data transfers
- **Replace expensive and inefficient file transfer methods:**
  - Reduces the cost of email operations by offloading large attachments
  - Eliminates cost and overhead of administering FTP sites
  - Reduces dependence on costly overnight delivery and CD burning
  - Increases attorney billable time and staff productivity
- **Insure non-repudiation of delivery** with real time notification of receipt
- **Facilitate secure collaboration** by enabling clients and outside counsel to reply securely
- **Meet regulatory compliance** and support security auditing with precise transaction tracking
- **Promote user adoption** with an intuitive user interface and discourage the use of unsanctioned file transfer methods
- **Integrate Biscom with Outlook** to enable attorneys and staff to send confidential emails and attachments securely

"We have replaced FTP with Biscom Delivery Server for file transfer to external parties. As a result, we have experienced a 50% reduction in IT time spent supporting large file transfer and improved attorney productivity."

Bob Lamy, CTO  
**McKenna Long  
& Aldridge**  
Attorneys at Law LLP

"Arnstein & Lehr chose Biscom to dissolve our file transfer challenges. What has resulted is a remarkably smooth process for our attorneys, who quickly adopted the simple interface...and as more lawyers within the law firm use it, the benefits are multiplying."

Joel Rothman, Partner  
**ARNSTEIN & LEHR LLP**

"Biscom was a win/win for IT and the staff. If a client needs a file right away, an attorney or paralegal can send it without any - or with minimal - IT involvement."

Arron Johnson, IT Director  
**OUTTEN & GOLDEN**
