

Biscom Delivery Server (BDS) is the established leader in providing secure file transfer technology that helps protect law firms from data breaches and facilitates large file transfer with clients, business partners and outside counsel. Biscom has teamed with Adaptive Solutions, Inc. to deliver seamless integration with Autonomy iManage. BDS for iManage is ideal for law firm litigation and practice groups that rely on iManage for managing the matter lifecycle.

Securely Transfer Files from iManage

BDS is an easy-to-use, enterprise-class secure file transfer solution designed specifically for today's most demanding ad-hoc file transfer needs. Available as a Web application and Outlook add-in, BDS enables secure, authenticated, point-to-point delivery of files and messages. With its extensive reporting and auditing capabilities, BDS can help your organization create a more secure communications infrastructure.

BDS for iManage integrates Biscom Delivery Server directly with iManage to improve the efficiency of the file transfer process in the following ways:

- Enables direct upload of iManage documents into a BDS delivery
- Imports documents contained in incoming BDS deliveries directly into an iManage WorkSite folder, inheriting matter centric metadata
- Eliminates duplication of iManage files in temporary locations
- Securely sends iManage files as a BDS delivery via FileSite integration with Microsoft Outlook

Biscom Delivery Server Features

- Remote access from any Web browser; no special client software required
- LDAP and Active Directory integration for managing enterprise users
- Integrated with Microsoft Outlook
- Enable recipients to reply securely and collaborate
- Automatically resume file transfer on network failure
- Multi-level password protection, encrypted file transfers, and three-tier architecture to keep your data secure
- Built-in auditing, logging, and reporting
- Intuitive, brandable user interface
- Receive e-mail notifications when recipients access your deliveries
- Platform independent (runs on Windows and Linux)
- Java, .NET, and Web services APIs available

About Biscom Delivery Server

Biscom Delivery Server (BDS) focuses on secure, managed file transfer solutions that resolve the security, compliance, and file attachment problems of e-mail and FTP.
